

## **Code of Conduct for Software Engineering IT314 Labs**

- Proper discipline has to be maintained in the lab.
- Please adhere to the lab timings strictly. .
- Use of unfair means like copied lab assignments will not be accepted and the entire marks for that particular assignment will be deduced for all the students involved.
- Deadlines are to be strictly maintained. late submission will be accepted but with proportionate reduction in the weightage.
- Web browsing related to the given assignment is allowed in the lab, but mailing or surfing is strictly prohibited.
- Use of mobiles is strictly prohibited. Keep your mobiles in switched off mode in the lab in side your pockets or bags.
- ***Please remember, the purpose of the labs is to reinforce the concepts and methods discussed in the class. The better job you do of applying these concepts and methods, the better your grade for the lab component.***
